The disorder in the lower house of the Kentucky Legislature was great Friday that a detachment of police had to be called in to stop the fighting and clear a gallery.

At night large crowds gathered about the Parliament house. Revolutionary threats were made by students and an attempt was made to wreck Premier Baden's residence. Police dispersed the mob, several people being hurt in the charge.—C. J.

If every citizen of the Sandy valley would write to his Congressman urging him to labor early and late for Big Sandy's slackwater system, it would have a wonderful effect.

No man should allow himself to feel too humble to do this. Your letters will carry some weight with them, no matter what your station may be.

Our West Virginia brethren, as well as our Kentucky people, should deluge their Congressmen with letters calling for appropriations for completing the slackwater system on Big Sandy river and its two forks.

NOTICE

My present term of office expires on the first Monday in January, 1898, and I am anxious to have my official work and business settled by that date. There are a number of deeds in my office that have been recorded and never called for, with all fees paid. There are also several deeds that have been left, with the 50 cents State tax paid on them and no orders left to record them. Also a number of deeds on which the 50c. State tax has never been paid. And a number of persons have spoken to me about some deeds they wanted recorded.

Any one who has a deed that he wishes recorded before the first of January, can get the work done by bringing in the deeds immediately and by paying the 50c. State tax on the deeds, you can get them recorded and arranged to pay the other fees when it suits you.

BIG SCHEME.

C. & O. Railroad to Extend Its Business.

Speaking of a scheme which is reported to be on foot, a dispatch to the daily press says:

"It is nothing more nor less than a plan for the control by the Vanderbilt interests, through the Chesapeake and Ohio railroad, of the soft coal markets of both the West and East."

The plan contemplates putting under one head a railroad system from New York to Milwaukee, including the larger lake ports, and a system of soft coal mines which shall produce every kind of bituminous coal from the hardest canal to the softest coking and smelting coal.

Every part of the enterprise from the ownership of the coal lands to the final delivery of the product to the local wholesale dealers will be managed by one head representing one interest.

About two months ago Hon. H. T. McGraw, of Grafton, W. Va., sold to a syndicate, including in its membership Cornelius Vanderbilt, H. McK. Twombly and H. Seward Webb, a tract of coal and timber wild lands in the northeastern part of West Virginia. This sale included 300,000 acres, and the figures were given at \$500,000. Besides this land, the same people bought other smaller tracts adjoining this one, making their holdings nearly half a million acres.

It was also announced that the same people had secured the controlling interest in the Dry Fork railroad, running from Hendricks, on the West Virginia Central and Pittsburgh railroad (the Davis-Elkins road), to Horton, 31 miles up the Dry Fork of Cheat river. This put a railroad through part of the newly acquired lands and to within ten miles of the best of the tract.

Another announcement no less important is that the Vanderbilt interests have secured control of the Hocking Valley road, and that it is to be extended south from its present terminus at Gallipolis, O., to a point opposite Huntington, W. Va., where the Ohio will be bridged and a connection made with the main line of the Chesapeake and Ohio. This will give the Chesapeake and Ohio a direct route to the West and Northwest, and will enable it to put coal into all the Western and Northwestern markets at the lowest possible rate, and over its own system."
